Americans are the lightest cocoa drinkers of any civilized people. We average only one cup apiece every fortnight. As a matter of fact only 15 per cent. of us ever drink cocoa, but it is gaining fast in popularity. It would gain far faster through more advertising. Los Angeles Man Says He Feels Like New.

Tanlac Ends Trouble of Sixteen Years Standing

Had Smothering Spells and Nearly Suffocated.

"Tanlac entirely relieved me of troubles from which I had suffered for sixteen years, and I am willing to make an affidavit before a notary that it has done all I say and more," declared Charles N. Thomas of 316 South Grand avenue, the other day.

"During all these years," he continued, "my condition was about as bad as it could be and my sufferings were so terrible I was afraid I would never get over them. I never got any satisfaction from my food, for everything I would eat fermented in my stomach and formed so much gas that after meals I would belch and gag and be in agony for hours. My heart would palpitate so awfully that I became alarmed, and I would wake up at all hours of the night feeling like I was being smothered to death. My mouth was dry and parched, and when these attacks of indigestion came on I would break out into a cold sweat and the perspiration would roll off me as if I was in a furnace. Then I would go so nervous that I would simply get all to pieces so that I wasn't fit for a thing."

"I took all kinds of medicines trying to get relief, but nothing helped me at all. I had known about Tanlac at my old home in Indiana, and as soon as it was placed on sale here I got me a bottle. Well, sir, it acted like magic, for I had hardly taken more than half a dozen doses when I felt relief was in sight. I kept on taking it till now my stomach has been toned up so I can eat anything I want and never have a bit of trouble with gas or indigestion. I am feeling better all over than I have in many years and am eating in every way right along. Really I won't hesitate to say that Tanlac has been a life-saver to me and I am now feeling like a new man. My wife, too, has been taking Tanlac, and it has helped her so much that we both think it is the best medicine made."

Tanlac is sold in Los Angeles, Pasadena and San Diego by The Owl Drug Co., under the personal direction of a special Tanlac representative.—(Advertisement.)

DANCE FOR HOSPITAL.
WAR SERVICE ASSOCIATION ALSO PROMISES WEDDING.

By Grace Kingsley.

De Mille up in the Air.
 Now looking upon motoring and sailing a yacht as tame sports, Cecil de Mille, director-general of the Famous Players-Lasky Company, seems to feel that true thrills can be gained only in playing around in the sky. Mr. de Mille can now run an airplane all by himself. Not only that, but last Sunday, for the second time, he took a passenger on an aerial trip, making a journey of about forty or fifty miles to the beaches and back. The person accompanied the distinction and pleasure of the trip was Elizabeth McGaffey, the erudite librarian and research expert of the Lasky company. Jeanie McPherson was his first passenger, the trip occurring about a week ago.

SEA LODGE TELLS US HOW TO SERVE TURKEY, AND THANKSGIVING IS THREE MONTHS OFF!

PANELS SHOW WOMEN'S WAR WORK, SAVE FREIGHT.

TO ELIMINATE all unnecessary freightage, a dozen large canvas panels, representing every phase of the work of the Women's Committee of the State Council of Defense, have been designed and constructed at the local headquarters, No. 719 South Hill street, and are to be shipped this evening to the State Fair at Sacramento. The panels, which are about six by six feet, resemble pieces of stage scenery, and are the inspiration of Mrs. Frances M. Carlton-Harmon, a member of the State Executive Committee and chairman of the local information and library service board. Each panel represents a particular branch of the Women's Committee's work. "We have in these charts a complete record of the united work of our women," stated Mrs. Carlton-Harmon, yesterday. "All the better of the transportation of material exhibits is eliminated and we have neither to attend to the packing nor the shipping of Council of Defense material, such as samples of food conservation, etc. We can use these same panels, which will be set up like a stage setting, in different places with practically no expense. They are light, durable and artistic."

MUST NOT CURTAIL MILK, SAYS EXPERT.

REDUCTION OF CONSUMPTION WOULD BE FALSE ECONOMY.

"A reduction of milk consumption is false economy," declared Dr. E. V. McCollum, dairy scientist and professor of biological chemistry at Johns Hopkins University, last evening, at a meeting held under the auspices of the Food Administration, in Blanchard Hall. "It is false economy, not only because we are concerned in saving the dairy industry, but because the strength and efficiency of the nation depend on a large degree on a sufficient consumption of milk products. Dairy products, more than any other, contain the vital factors indispensable to the growth and development of the individual. Also milk is the cheapest and most nutritious food on the market. Housewives who reduce their milk consumption are running a risk. Malnutrition is slow and its effects can not be observed at once, and it is at this time particularly that each individual is in duty bound to keep himself fit for any emergency. Dr. McCollum is delivering a series of food conservation lectures throughout the country. He was introduced last evening by Dr. William Duffield, president of the County Medical Society and a member of the medical section of the National Council of Defense.

"FRIGHTENS" HUSBAND INTO ARMY, NOW SORRY

WIVES WHO WAIVE EXEMPTION CANNOT LATER SECURE MAN'S RELEASE.

(BY A. F. NIGHT WIRE.)
CAMP LEWIS, (Tacoma) Aug. 28.—Wives who waive exemption as dependents of selective draft men cannot obtain release of husbands, once the men are inducted into military service, according to a ruling of the Judge Advocate's office today. Three days ago a man arrived in camp whose wife a few days previously had gone before his draft board in Seattle and waived exemption. Today the wife came to camp, seeking the new soldier's release. She said she had taken the action before the draft board to "frighten" her husband into an attempt to make him pay more attention to his home. Her appeal was refused, despite the fact the couple have three children. The family, however, will receive \$52.50 a month from the soldier's pay and the government allotment to dependents.

Action of a general court-martial was approved today sentencing Private Harry J. Collins of Camp Polla, Wash., to five years in a military prison for attempting to take his own life. Labor Day will be a holiday in camp, and all duty except the guard and necessary fatigue will be dispensed with, according to a bulletin issued by Brig.-Gen. Cornelius Vanderbilt today.

Business Page: Money, Stocks and Bonds—Grain—Mines—Financial Market Abroad

WHY STOCKS ARE FIRM,
WHY DAWN IS BREAKING.

BY CHAPIN HALL.

IN LINE with the optimistic tendency which is searching out the dark corners of business and finance, and which I have been trying for several days to bring into legitimate relief in this column, a casual survey of stock market conditions is within the picture, and while the stock market may bear the same relation to stable, long term investments in bonds, real estate or what not that an eighteen-year-old debutante does to a forty-year-old matron, it cannot be denied that the stock market does reflect to a greater or less degree of accuracy the actual, fundamental conditions upon which the world of commerce and of finance rests.

While would-be investors are literally clamoring for high-grade bonds and big business is laying plans for the great commercial battles which are to follow the defeat of Prussianism, the speculative stocks have responded vigorously to the undercurrent of optimism. In some instances they have overreached themselves and become top-heavy, but the point I am trying to make is that the generally favorable outlook is not the vision of the bond broker, or the real estate holder, or the man who sees largely and hopes for and expects the best, but that in every branch of business, finance and investment the same quiet strength is manifest. This, perhaps, invades the psychological field, but it is all having its effect.

The condition of the stock market has been likened to a set of finely-adjusted scales. On one side, price levels down, disturbing

UNITED STATES STEEL
AT MAXIMUM FOR YEAR.

[BY A. P. NIGHT WIRE.]

NEW YORK, Aug. 28.—On a moderate curtailment of operations, today's stock market continued to manifest much of the recent quiet strength, favorable foreign news again serving to neutralize adverse monetary conditions.

War bulletins found their most direct expression in another advance of Paris exchange to the high level on the current movement.

French war stations retaining the greater part of their gains. Trading concentrated in an overwhirl of degree, the United States Steel stock selling at its highest in its further progress to the year's new maximum of 114 1/2.

This extreme gain of 1 1/4 points was reduced to a fraction at the close.

Shippings reflected no disappointment at the delay in consummating the mercantile marine deal, Marine pld. showing strength with Atlantic pld. Coppers were roused out of their protracted lethargy, Utah American Smelter and Anaconda featuring in that division.

Large reactions to 1 1/2 points. Independent steel and kindred industries and commodities were 1 to 1 1/2 points higher at their best and distinctive war shares were featured by petroleum, Mexican Petroleum, however, evincing some irregularity. General Motors the spectacular feature, its precipitate

Gasoline with a Continuous Chain of Boiling Points.

Only a straight-distilled, all-refinery gasoline can have the continuous, uniform chain of boiling points necessary to give easy starting, quick and smooth acceleration, steady, dependable power and long mileage.

Look for the Red Crown sign before you fill.
